Connect ABii to Your District Network

1. Find ABii's WiFi name on the bottom of your robot's left foot (example: ABii-xxxx).
2. Turn on your robot. Wait for her eyes to turn purple.
3. Connect your device to the WiFi name found on ABii's foot. Enter ABii's WiFi password: **abiijams** (this is the password for every ABii robot's WiFi)
4. Open a new tab in your browser (Google Chrome preferred) and navigate to: **www.login.abiis-world.com.** It may take a few minutes for the screen to load.
5. On the Welcome Page, click the WiFi icon.
6. Connect the ABii robot to your District WiFi by finding it in the dropdown menu and entering the WiFi password.
